Career Profile

I'm a passionate UI/UX designer and Front-end Developer with a knack for crafting user-centric interfaces that are both beautiful and functional. I bring together my design sensibilities and development expertise to create intuitive and engaging web experiences.

In essence, I bridge the gap between design and development. I start by understanding user needs and translating them into visually appealing UI/UX designs. Then, I leverage my front-end development skills to bring those designs to life, ensuring a seamless and positive user experience across all devices.

Relevant Skills

• UI/UX Design Skills:

- User research (e.g., user interviews, surveys)
- Information architecture (IA)
- Wireframing & prototyping tools (e.g., Figma, Adobe XD)
- UI design principles (e.g., visual hierarchy, usability)
- Design software (e.g., Adobe Photoshop)

• Front-End Development Skills:

- HTML5
 - CSS3 (including preprocessors like SASS and Bootstrap)
 - JavaScript (including frameworks like React and Angular)
 - Responsive web design (RWD)
 - Version control systems (e.g., Git and GitHub)
-

Projects

UIUX Design

Append: I designed a website for Append it's a company that specializes in Bootstrap web development. Find link [Here](#)

The Mobi: I redesigned a website for **the MOBI**. It is a Zimbabwe's very first Mobile Soup Kitchen, providing nutritious meals and support to women and children in some of our most vulnerable and isolated communities. Find link [Here](#)
