Career Profile

Highly skilled UI/UX designer and Front-end Developer with a knack for crafting user centric interfaces that are both beautiful and functional. I bring together my design sensibilities and development expertise to create intuitive and engaging web experiences.

In essence, I bridge the gap between design and development. I start by understanding user needs and translating them into visually appealing UI/UX designs. Then, I leverage my frontend development skills to bring those designs to life, ensuring a seamless and positive user experience across all devices.

Relevant Skills

• **UI/UX Design:**

   o   User research (e.g., user interviews, surveys)
   o   Information architecture (IA)
   o   UI design principles (e.g., visual hierarchy, usability)
   o   Design software (e.g. Adobe Photoshop, Sketch, Canva & Corel Draw)
   o   Wireframing & prototyping tools (e.g., Figma, Adobe XD)

• **Front-End Development:**

   o   Responsive web design (RWD)
   o   HTML5
   o   CSS3 (including preprocessors like SASS and Bootstrap)
   o   JavaScript (including frameworks like React and Angular)
   o   Version control systems (e.g., Git and GitHub)

Projects

UIUX Design

Append: I designed a website for Append it's a company that specializes in Bootstrap web development. Find link [Here](#)
